REAL ESTATE MEN HOLD CONFERENCE

Discuss Means to Advertise the Re-

The members of the Sait Lake Real Estate association held their seminonthly meeting yesterday afternoor at the Commercial club and decided to begin active work upon several import-ant matters which they have had under

consideration for some time.

The real estate bureau of information has now become a fact. Next Monday the association will hold a special meeting at which time the committee which has the matter in charge will submit a number of suitable locations for the consideration of the members. After the location has been decided upon a secretary will be selected.

The purpose of the bureau of infor-mation will be primarily to advertise and exploit the resources of the State. and exploit the resources of the State. Literature of a business nature will be kept on hand to supply the tourists who pass through the State. The Real Estate association contemplates publishing two pamphlets and at yesterday's meeting committees were ap-pointed to begin the work. A small pamphlet will be published giving the aims, purposes and rules governing the local association it will contain the names of the association members ar names of the association members ar-ranged in alphabetical order with the commission charged by the firm oppo-site. The other pamphlet will deal with the resources of the State in general and will contain statistics and reliable information showing the profits derived from investments made in Salt Lake The committee which has the packing

the movement was sure to succeed. Farmers merchants, and stockgrow-ers alike all recognized the great adcantages to be derived from the move ment and were giving it their heartiest support. Over half the money at first suggested has already been subscribed, but those who were prominently identi-ted with the move now favor the creetion of a larger plant than was at first contemplated. The question is, shall the plant be of moderate or gigantic proportions, as the situation demands? Fo settle this question the prime movers of the scheme will have to await the return of Senator Kearns, who is highly interested in the project.

A committee was appointed to begin preparations for entertaining the Knight Templars who will visit in Zion for twenty-four hours en route to Cal-fornia. Twenty-six train loads of the tourists are now on their way to San Francisco and Zion will be flooded by the excursionists next week.

MILL CREEK HOME ROBBED

Harold Best and Family Victims of Burglars.

Very expensive was the outing of the family of Harold Best up the canyon on Pioneer day, as in their absence burglars got in through the window and made a general clearance of everything portable they could find.

Mr. Best lives in Mill Creek, and took his whole family up the cangon in a wugon on the holiday. When they rewagon on the holiday. When they re-turned late in the evening they found a window broken and the whole house ransacked. Clothing ornaments, jew-elry and \$23 in money were taken. Not only was the loss great, but many of the articles are valued at more than their intrinsic worth by the family are an not be replaced.

No signs of wheels are to be found near the house, so it is evident that the thieves were on foot. As there were very few people left in the village there were no suspicious characters seen, and the Sheriff's officers have nothing to go on to enable them to find the criminals. The work appears to be that of the gang that has been operat-ing so extensively in the city recently.

Mrs. Judge Buys Land.

Mrs. Mary Judge has just purchased in additional fifty-five acres south of her suburban tract. This gives her the ownership of the entire southeast oncmarter of section 15, township 2 south range 1 east, with the exception of the piece owned by Oscar W. Moyle. Mrs Judge has a very fine house on the property and with the additional land has a total of 128 acres in one of the prettiest portions of Salt Lake county, near the mouth of Big Cottonwood.

Mrs. Morton testined that the ton claims that their nome in South Cor-tonwood was purchased with maney left to her by her first husband; that her hus-lend advised her to have a deed made to the property to each of them, and that he afterward burned hers. The couple were married on August 19, 1891.

In presenting PAW PAW, a natural stomach, heart and nerve tonic, I feel that I have added to the science of medicine a force that is as revolutionary as was vaccination, as important to mankind as the discovery of antiseptics and as beneficial in the preservation of human life and happiness as anything that man's ingenuity or providential wisdom has ever devised.

THE PRACTICAL DRUGGIST AND REVIEW OF RE-VIEWS says: "The juice of the Paw Paw is more efficacious than pepsin in dissolving albumen. The fruit or juice seems to have the same effect as a good digestive and is more effective in cases of dyspepsia and habitual constipation."

Having combined this wonderful natural remedy with other medicaments, I positively assert that I am giving to the world the greatest stomach, blood, heart and nerve tonic known to mankind.

I know that Paw Paw will make worn out stomachs almost as good as new; will make good, rich blood and build up the nervous system; will do away with both the necessity and desire for beer, whisky, wine and other injurious stimulants.

A body that is overworked, a system that is run down, requires a stimulant. Alcoholic stimulants lift, but let you fall. PAW PAW LIFTS AND HOLDS YOU!

I want every weak and dishinated person to give Paw Paw a trial. I want every doctor carefully to test this remody and then honestly tell the

public the results. I want every clargyman when he feels exhiusted to take Paw Paw and then tell his friends what he thinks of it.

I want every mother to introduce Paw Paw into her home. It will prove a ready agent in curing and warding off many diseases. I want every tired woman after a hard day's work or an afternoon's shop ping to take a table-spoonful of Paw Paw and see how quickly it will refresh

I urge upon brain workers particularly the use of Paw Paw. It will imme diately give tone and energy to the whole nervous system. If the toiler who feels the need of a stimulant will step into the mearest drug store and ask for Paw Paw he will have no further use for whisky, beer

I believe when the public becomes thoroughly familiar with the virtues of Paw Paw it will not only be used in every home, but will be adopted into the United States army and navy, and used in every hospital throughout the c
